PLAN CHECK SAMPLE WYE REQUIREMENTS

- A. All sample wye installations required by the City of San Bernardino Municipal Water Department Environmental Control Section shall meet the following requirements:
1. The barrel diameter of the sampling station shall be a minimum of 2" larger than the building discharge line.
 2. The diameter of the riser pipe shall be 4".
 3. The sample wye shall be accessible to the Water Department Environmental Control Section at all times.
 4. The sample wye shall not be installed in travel ways, unless authorized by the EC Section.
 5. A flush cap shall be used for all sample wyes installed in floor areas.
