

CITY OF SAN BERNARDINO MUNICIPAL WATER DEPARTMENT
1350 South "E" Street
San Bernardino, CA 92408
P.O. Box 710, 92402

RULE AND REGULATION NO. 21
GENERAL WATER AND SEWER SERVICE RATES AND CHARGES

1.0 WATER SERVICE AND WATER RATES

The following rates shall be charged for all water furnished for domestic, commercial, industrial, and municipal water use within the City of San Bernardino and unincorporated San Bernardino County areas within the Water Department's service area, and for any other purpose for which no rate is specified.

1.1 Minimum Monthly Charge

All users will be assessed a minimum monthly charge to recover fixed costs, such as meter replacement, customer service, mailing costs, bill payment, and debt service. The rates will be as follows:

<u>Meter Size</u>	<u>October 1, 2016</u>	<u>July 1, 2017</u>	<u>July 1, 2018</u>
1/2 inch or 5/8 inch	\$16.09	\$19.58	\$23.39
3/4 inch	\$20.15	\$24.51	\$29.28
1 inch	\$28.19	\$34.30	\$40.98
1-1/2 inch	\$48.40	\$58.88	\$70.35
2 inch	\$72.60	\$88.32	\$105.52
3 inch	\$129.12	\$157.06	\$187.66
4 inch	\$197.36	\$240.07	\$286.63
6 inch	\$411.68	\$500.78	\$598.33
8 inch	\$653.88	\$795.40	\$950.34
10 inch	\$936.44	\$1,139.12	\$1,361.01

1.2 Commodity Charge

This charge recovers water production and treatment costs, as well as associated variable costs of the Department. This rate is charged per hundred cubic feet (hcf) of water sold.

Commodity	<u>October 1, 2016</u>	<u>July 1, 2017</u>	<u>July 1, 2018</u>
Charge per hcf	\$1.15	\$1.15	\$1.15

1.3 Replenishment Charge

This charge recovers the cost of water purchased to replenish the local basin and may be adjusted up or down, depending upon the amount of replenishment required. This rate is charged per hundred cubic feet (hcf) of water sold.

Replenishment	<u>October 1, 2016</u>	<u>July 1, 2017</u>	<u>July 1, 2018</u>
Charge per hcf	\$0.11	\$0.14	\$ 0.17

1.4 Elevation Change

This charge recovers electrical costs to transport water through the system and is specific to each zone. The electricity cost incurred at plant facilities within each elevation level is distributed across water usage within that zone. This rate is charged per hundred cubic feet (hcf) of water sold.

<u>Elevation Zone</u>	<u>October 1, 2016</u>	<u>July 1, 2017</u>	<u>July 1, 2018</u>
Zone 1	\$0.11	\$0.11	\$0.11
Zone 2	\$0.19	\$0.19	\$0.19
Zone 3	\$0.17	\$0.17	\$0.17
Zone 4	\$0.14	\$0.14	\$0.14
Zone 5	\$0.23	\$0.23	\$0.23
Zone 6	\$0.23	\$0.23	\$0.23

Note: The Energy Surcharge previously collected is now included in this Elevation Charge.

1.5 Conservation Charge and Tiers

To encourage conservation, customer accounts placing a greater demand on the water system will be assessed a higher cost. Initially, customers using in excess of their class average by service size listed below will pay a higher rate for water usage that falls in the second tier. To encourage greater conservation over a longer period of time, each tier

and charge will adjust annually. This rate is charged per hundred cubic feet (hcf) only on that usage above the level defined in the tier table below. Revenues recovered from these charges will fund conservation programs sponsored by the Department.

Conservation	October 1, 2016	July 1, 2017	July 1, 2018
Charge per hcf	\$0.49	\$0.49	\$0.49

All usage in hundred cubic feet (hcf) in excess of that listed below, by class, is billed the conservation charge. As an example: As of July 1, 2012, residential use equal to or below 32 hcf in a monthly billing period will not be assessed an additional conservation charge. However, each hcf billed above 32 will be assessed an additional 49¢ per hcf. The table below indicates the hcf cutoff for each customer class by meter size.

<u>Conservation Tiers</u>	<u>January 1, 2012</u>
Residential	32
MDU (2)	42
MDU (2+) per unit	17
Non-residential 5/8"	24
Non-residential 3/4"	36
Non-residential 1"	65
Non-residential 1--1/2"	150
Non-residential 2"	250
Non-residential 3"	740
Commercial 5/8"	42
Commercial 3/4"	55
Commercial 1"	130
Commercial 1-1/2"	275
Commercial 2"	445
Commercial 3"	875
Commercial 4"	2,400
Commercial 6"	9,000

1.6 Assessment District Charge

Water furnished to the City for landscape assessment districts or funded from other than the City's General fund will be charged the following rate per hundred cubic feet (hcf) of water sold.

Assessment District	<u>October 1, 2016</u>	<u>July 1, 2017</u>	<u>July 1, 2018</u>
Charge per hcf	\$0.45	\$0.45	\$0.45

1.7 Unmetered Charge

A "jumper" may be substituted for a water meter during single or multi-family housing construction at a charge of \$50 per month for a maximum of 120 calendar days or until the lot landscaping begins. Thereafter, a water meter shall be installed subject to all fees and charges as listed above prior to the issuance of a certificate of occupancy. Water used for tract grading and jetting of trenches is not covered in the above charge and is subject to the fees and charges listed in Rule and Regulation No. 16.

1.8 Surcharge - Outside City Limits

Any service installed outside the incorporated territory of the City after February 1, 1991, may be billed the meter charge and all required consumption related charges as set forth in this Rule and Regulation, multiplied by 1.5.

1.9 Water Supply Shortage Rates

To comply with State of California mandates, the City of San Bernardino Municipal Water Department shall implement the following procedure in response to drought or water supply shortage declarations or similar service interruptions in the delivery of water to its customers.

During any drought or water supply shortage condition, the Department's General Manager may declare any one of four shortage level responses with ratification by the Board of Water Commissioners (Board) within three calendar days. A declaration of a water supply shortage may result from:

- A. Interruption of service through major plant failure..

- B. Interruption of replenishment water from various resources.
- C. Rainfall level at twenty-five percent (25%) or more below normal levels for at least six months.
- D. A natural disaster or other emergency event.
- E. Emergency regulations by the State Water Resources Control Board (SWRCB), the Department of Water Resources (DWR), and/or Executive Order(s) from the Governor's office.

Stage I (Voluntary Restrictions) incurs no financial penalties but requires an ongoing commitment to a water conservation program. During Stage I, the Department shall:

- A. Offer educational resources and landscaping classes.
- B. Offer rebate programs for water smart appliances and other water saving devices.
- C. Encourage voluntary conservation through continued media announcements.
- D. Request the City Manager to direct city parks, facilities and golf courses to restrict landscape watering to off-peak hours to reduce demand on the water system and eliminate the 60% evaporation rate during daytime watering.
- E. Provide reminder notices regarding noted water waste.
- F. Offer community outreach programs.

Due to the continuous conservation efforts required to preserve San Bernardino's water supply in the region's arid climate, Stage I will be maintained at all times.

Stage II (Mandatory Restrictions) will impose a five percent (5%) reduction in water usage and assess financial penalties on usage in excess of those amounts.

A base allowance for each customer will be established based upon their 2013 calendar year's water usage. A ten percent (10%) surcharge will be applied to each billing unit that exceeds the (5%) required reduction in base allowance. Where the customer does not have consumption history from 2013,

then the Department shall use the customer's rate/class consumption average, by meter size, as the benchmark.

As an example: A customer used 20 billing units in August 2013. During a Stage II five percent (5%) usage reduction, the customer is permitted 19 billing units during the August 2014 billing period.

$$\begin{aligned} 20 \text{ hcf} \times 5\% &= 1 \text{ hcf} \\ 20 \text{ hcf} - 1 \text{ hcf} &= 19 \text{ hcf August 2014 Baseline} \end{aligned}$$

If that customer utilizes 19 or less billing units, no financial penalty is assessed. However, should that customer utilize 25 billing units, a ten percent (10%) surcharge will be assessed for each billing unit in excess of 19:

$$\begin{aligned} 25 \text{ hcf} - 19 \text{ hcf} &= 6 \text{ hcf} \times 10\% \times \$1.15 \text{ (Commodity Rate)} \\ &= \$.69 \text{ Surcharge} \end{aligned}$$

Additionally, during Stage II, the Department mandates the following:

- A. Irrigation shall only be allowed between the off-peak hours of 6:00 pm through 8:00 am.
- B. Irrigation shall be limited to four days per week on Mondays, Wednesdays, Fridays and Sundays only.
- C. No watering of outdoor landscapes that cause excessive runoff.
- D. No washing down driveways, sidewalks, or other hardscapes.
- E. The washing of cars, trucks, or other vehicles is not permitted except with an automatic shut-off device, or at a commercial car washing facility designated for vehicle washing.
- F. No use of fountains that use potable water, unless the water is recirculated.
- G. Increase advertisement of conservation measures.
- H. Maintain a message center for reporting water waste.
- I. Determine course of action to remediate reported water waste.

- J. Request the City Manager to direct Parks and Recreation, City Facilities and all golf courses to limit outdoor watering for irrigation to four days per week, and also only between the hours of 6:00 pm through 8:00 am.
- K. All leaks shall be corrected within seventy-two (72) hours of Department notification.

The Board of Water Commissioners reserves the right to declare additional Stage II mandatory restrictions and prohibitions in the future if required by the State of California.

Stage IIA (Extreme Mandatory Restrictions) will impose a reduction in water usage consistent with state conservation mandates or a fifteen percent (15%) reduction in water use, whichever is greater, and assess financial penalties on usage in excess of those amounts.

A base allowance for each customer will be established based upon state conservation mandates. If not defined by conservation mandate, a base allowance for each customer will be established based upon their 2013 calendar year's water usage. A twenty percent (20%) surcharge will be applied to each billing unit that exceeds the required reduction in base allowance. Where the customer does not have consumption history, then the Department shall use the customer's rate/class consumption average, by meter size, as the benchmark.

As an example: A customer used 20 billing units in August 2013. During a Stage IIA fifteen percent (15%) usage reduction, the customer is permitted 17 billing units during the August billing period.

$$\begin{aligned} 20 \text{ hcf} \times 15\% &= 3 \text{ hcf} \\ 20 \text{ hcf} - 3 \text{ hcf} &= 17 \text{ hcf August Baseline} \end{aligned}$$

If that customer utilizes 17 or less billing units, no financial penalty is assessed. However, should that customer utilize 25 billing units, a twenty percent (20%) surcharge will be assessed for each billing unit in excess of 17 hcf. Assuming the commodity rate is \$1.15 per hcf:

$$\begin{aligned} 25 \text{ hcf} - 17 \text{ hcf} &= 8 \text{ hcf} \times 20\% \times \text{commodity rate Surcharge} \\ &= 8 \text{ hcf} \times 0.2 \times \$1.15 = \$1.84 \end{aligned}$$

Additionally, during Stage IIA, the Department mandates the following:

- A. Irrigation shall only be allowed between the off-peak hours of 6:00 pm through 8:00 am.
- B. Irrigation shall be limited to three days per week; Mondays, Wednesdays and Fridays only.
- C. Maximum irrigation time of 15 minutes per station per designated irrigation day.
- D. Irrigation will be prohibited for a full 48 hours after a significant precipitation event (rainfall in excess of 1/8" as measured at the Department's Mill and D rain gauge) has occurred over the City of San Bernardino. Department will maintain website notification when this restriction will be in place.
- E. No watering of outdoor landscapes that cause excessive runoff.
- F. No washing down driveways, sidewalks, or other hardscapes.
- G. The washing of cars, trucks, or other vehicles is not permitted except with an automatic shut-off device, or at a commercial car washing facility designated for vehicle washing.
- H. No use of fountains that use potable water, unless the water is recirculated.
- I. Increase advertisement of conservation measures.
- J. Maintain a message center for reporting water waste.
- K. Determine course of action to remediate reported water waste.
- L. Request the City Manager to direct Parks and Recreation, City Facilities and all golf courses to limit outdoor watering for irrigation to two days per week or reduce consumption by the current Stage IIA reduction percentage, and also only between the hours of 8:00 pm through 6:00 am.
- M. Irrigation of ornamental turf on public street medians is prohibited.

- N. Use of potable water outside of new residential home and commercial/industrial construction that is not delivered by drip or micro-spray systems is prohibited.
- O. The serving of drinking water other than upon request is prohibited, in eating or drinking establishments including but not limited to restaurants, hotels, cafes, cafeterias, bars or any other public place where food or drink are served.
- P. All hotels/motels shall provide their guests with the option of choosing not to have towels and linens laundered daily. The hotel/motel must prominently display notice of this option in each bathroom using clear and easy language.
- Q. All leaks shall be corrected within seventy-two (72) hours of Department notification.

The Board of Water Commissioners reserves the right to declare additional mandatory restrictions and prohibitions in the future if required by the State of California.

Stage III (Water Shortage Emergency) will impose a fifty percent (50%) reduction in water usage and assess financial penalties on usage in excess of those amounts. A Stage III water supply shortage condition shall be declared if a catastrophic interruption of water supply or distribution facility occurs as the result of drought, earthquake, wildfire, extended power outage or any other disaster in which the Department may be prevented from meeting the water demands of its customers. Prior to the Board of Water Commissioners taking action on the Stage III declaration, notice will be given to the Mayor and the City Manager of the mandatory restrictions that will be placed into effect.

A base allowance for each customer will be established based upon their 2013 calendar year water usage. A one hundred percent (100%) surcharge will be applied to each billing unit that exceeds the fifty percent (50%) required reduction in base allowance. Where the customer does not have consumption history from 2013, then the Department shall use the customer's rate/class consumption average, by meter size, as the benchmark.

As an example: A customer used 20 billing units in August 2013. During a Stage III fifty percent (50%) usage

reduction, the customer is permitted 10 billing units during the August 2015 billing period.

$$20 \text{ hcf} \times 50\% = 10 \text{ hcf}$$

$$20 \text{ hcf} - 10 \text{ hcf} = 10 \text{ hcf August 2015 Baseline}$$

If that customer utilizes 10 or less billing units, no financial penalty will be assessed. However, should that customer utilize 25 billing units, a one hundred percent (100%) surcharge will be assessed for each billing unit in excess of 10: Assuming the commodity rate is \$1.15 per hcf:

$$25 \text{ hcf} - 10 \text{ hcf} = 15 \text{ hcf} \times 100\% \times \$1.15 \text{ (commodity rate.)} = \$17.25 \text{ Surcharge}$$

Additionally, during Stage III, the Department mandates the following:

- A. Irrigation shall be allowed only between the off-peak hours of 8:00 pm through 6:00 am; however, the Department reserves the right to prohibit all outdoor irrigation at any time depending on the severity of the emergency.
- B. Irrigation shall be limited to two days per week, on Mondays and Thursdays; however, the Department reserves the right to prohibit all outdoor irrigation at any time depending on the severity of the emergency.
- C. No watering of outdoor landscapes that cause excessive runoff.
- D. No washing down driveways, sidewalks, or other hardscapes.
- E. No washing of vehicles except at commercial vehicle washing facilities.
- F. No use of fountains that use potable water, unless the water is recirculated.
- G. Increase advertisement of conservation measures.
- H. Maintain a message center for reporting water waste.
- I. Determine course of action to remediate reported water waste.
- J. Request the City Manager to direct parks, facilities and golf courses to limit outdoor watering for irrigation to

two days per week, and also only between the off-peak hours of 8:00 pm through 6:00 am; however, the Department reserves the right to prohibit all outdoor irrigation at any time depending on the severity of the emergency.

- K. The serving of drinking water other than upon request is prohibited, in eating or drinking establishments including but not limited to restaurants, hotels, cafes, cafeterias, bars or any other public place where food or drink are served.
- L. All hotels/motels shall provide their guests with the option of choosing not to have towels and linens laundered daily. The hotel/motel must prominently display notice of this option in each bathroom using clear and easy language.
- M. All leaks shall be corrected within seventy-two (72) hours of Department notice.
- N. Deny all new construction meter requests.
- O. Remove or lock out all existing construction meters in service.

1.10 Notices of Violation

- A. Step 1: 1st Violation warning letter to the customer/owner describing the water waste issue and notice of potential fines for continuing water waste, providing a Department customer service contact for conservation information and assistance. Provides customer/owner seven calendar days to remedy the water waste situation and comply with conservation restrictions.
- B. Step 2: 2nd Violation, customer/owner site visit or phone call to discuss nature of the water waste and potential solutions. A second Notice of Violation letter allowing seven calendar days to remedy the water waste situation and comply with conservation restrictions.
- C. Step 3: 3rd Violation: Third Notice of Violation letter informing customer/owner of financial penalty and allowing seven calendar days to remedy water waste situation and comply with conservation restrictions. One hundred dollars (\$100.00) penalty assessed.

- D. Step 4: Subsequent Violation(s): Additional penalties increasing incrementally by one hundred dollars (\$100.00) per occurrence, up to a limit of five hundred dollars (\$500.00) per incident. Customer/owner shall receive a separate notice per each subsequent violation and will have seven (7) calendar days after each notification to remedy the water waste situation and comply with conservation restrictions.
- E. Step 5: The Department may restrict the amount of water supplied to any customer/owner failing to comply with conservation standards. The provisions of this section shall be applied in addition to any other penalties provided in this rule and shall be applied at the discretion of the Department.

Exceptions: The restrictions of water consumption outlined herein are not applicable to water usage necessary for public health and safety or for essential governmental services, such as police, fire, and emergency services. The Department reserves the right to waive any water restriction penalty when, in its discretion, such consumption is required in order to maintain an adequate level of public health and safety.

1.11 Payment of Surcharges and Penalties

All surcharges and penalties imposed under this Rule and Regulation shall be added to customer's water bills or as a lien on the owner's property and become payable at the same time and in the same manner as such bills or by such other method of collection and payment as established by the Department.

1.12 Right to Hearing

Any customer/owner shall have a right to a hearing with the General Manager of the Department, or his/her designee, on a notice of violation, the assessment of a surcharge or penalty, or the denial and/or lock out of a construction meter, upon written request to the Department. Customer/owner's written request for a hearing must be received by the Department within ten (10) calendar days from the date of notice of violation, or customer/owner's right to a hearing shall be deemed waived.

Customer/owner shall be deemed notified of a violation, surcharge, penalty, or denial and/or lockout of a construction meter upon (1) the personal delivery of the notice to customer or (2) the date of lock out and/or denial of construction meter. If personal delivery is not given, the date on which the notice is placed in the regular mail shall be deemed the date of notification.

Customer/owner's timely written request for a hearing shall automatically stay the imposition of a penalty until the General Manager or his/her designee renders a decision; except that denial of a construction meter request or lock out of an existing construction meter shall remain in effect until the General Manager or his/her designee renders a decision.

The decision of the General Manager or his/her designee may be appealed to the Board of Water Commissioners, provided that the customer files a written notice of appeal with the Department within five calendar days of notification of the decision.

The decision of the General Manager, his/her designee, or the Board (if an appeal is timely filed) shall be final and conclusive and shall not be subject to appeal to the Mayor and Common Council. Once the decision becomes final as provided in this Rule and Regulation, the time in which judicial review of the decision must be sought shall be governed by California Code of Civil Procedure Section 1094.6, or other applicable State law.

1.13 Other Water Conservation Measures

The Board may order implementation of other water conservation measures in addition to those set forth in this rule and regulation. Such additional water shortage measures shall be implemented in the manner provided in this rule.

1.14 Conclusion of a Water Supply Shortage Condition

The General Manager shall notify the Board when the water supply shortage condition stage level should be reduced. The Board may ratify the General Manager's reduction of stage level. All bills issued after the Board's ratification date shall not include water supply shortage surcharges.

1.15 Use of Surcharge Funds:

Any surcharges and fines will be segregated into a restricted cash account managed by the Department to supplement the conservation efforts of the Department.

2.0 SEWER SERVICE AND INDUSTRIAL WASTE CHARGES

2.1 Users Located Within and Users Located Outside the Incorporated Territory of the City

Any premises located within or located outside the incorporated territory of the City which is serviced by a connection to the system of sewage and waste treatment of the City shall be charged and the user thereof shall pay a sewer service charge based upon the schedules defined herein.

2.2 Residential Single Family and Multi-Family 2-unit and 3-unit dwelling units

All single-family residential dwelling units and all multi-family 2-unit and 3-unit properties shall be charged a fixed monthly rate.

All sewer rates, and the rate for each class of users shall be established by resolution of the Board. All sewer charges and fees shall be sufficient to cover the share of sewerage costs attributed to each class of users. The costs shall include all costs associated with financing, maintaining, and operating the sewerage system and developing the necessary reserve funds to ensure future development and operation of the system.

2.3 Multi-Family Residential Units, Commercial and Other Users

Multi-family residential units larger than 2-units or 3-units, commercial users, and other designated users shall be charged on the basis of total water consumption during a comparable water billing cycle. Commercial users shall be placed in the appropriate sewer class based on the primary operations conducted for proper billing.

All sewer rates, and the rate for each class of users shall be established by resolution of the Board. All sewer charges and fees shall be sufficient to cover the share of sewerage costs attributed to each class of users. The costs shall include all costs associated with financing, maintaining, and operating the sewerage system and developing the necessary reserve funds to ensure future development and operation of the system.

2.44 Industrial Rate Users

The designation as an Industrial Rate user is addressed in Rule and Regulation No. 26.

All sewer rates, and the rate for each class of users shall be established by resolution of the Board. All sewer charges and fees shall be sufficient to cover the share of sewerage costs attributed to each class of users. The costs shall include all costs associated with financing, maintaining, and operating the sewerage system and developing the necessary reserve funds to ensure future development and operation of the system.

2.5 SEWER COLLECTION AND TREATMENT RATE SCHEDULES

The following rates shall be charged for all sewer services furnished for domestic, commercial, industrial, and municipal sewer use within the City of San Bernardino and unincorporated San Bernardino County areas within the Water Department's service area, and for any other purpose for which no rate is specified.

Sewer Collection					
Line	Customer Class	Unit	Rates Effective On:		
			10/1/2015	7/1/2016	7/1/2017
1	Residential- Single Family	\$/month/account	\$9.00	\$9.45	\$9.90
2	Multi-Family Residential (2Units)	\$/month/account	\$18.00	\$18.90	\$19.85
3	Multi-Family Residential (3Units)	\$/month/account	\$27.00	\$28.35	\$29.75
4	Multi-Family, Mobile HomeParks (4or more units), Non-Residential, and Industrial:				
5	Monthly Charge	\$/month/account	\$2.80	\$2.95	\$3.10
6	UsageCharge	\$/hcf	\$0.79	\$0.83	\$0.87
